

Brother Moon

Oh brother brother moon
come and help me soon
heal my heart and make me bloom
Oh brother brother moon
worst case coming soon
I need you now
it's round high noon

O brother brother moon
wild flowers in the gloom
beauty will be disappear to soon
Oh brother brother brother
they live in a flash
And today's trend
is tomorrow's trash

*'cos I'm waiting here for you so long
long long time I belong
waiting for you, to come along
could someone help me please?*

Oh brother brother moon
I'm out of tune
It rains in summer
and snows in june
Oh brother brother moon
come and help me soon
Heal my heart and make me bloom

Oh brother brother brother
