

# Feel Safe

When the world scares me  
With all the creepy creatures and enemies.  
I can stay calm  
You will fight for me, I shall hold my peace

You will dry my tears, strengthen my back  
And give back to me what I've released  
You will fight for me, I shall hold my peace

**I feel safe - I feel safe**  
**You make me feel safe**  
**I release my fear and overcome**  
**You stand up for me and make me feel safe**

Oh please send me a Guardian  
I think I need someone here right beside me  
I don't need to be scared, I know  
But sometimes it happens to me  
You will fight for me, I shall hold my peace

When my world tumbles and falls  
I'm holding on to your vows  
You will fight for me until the end  
And I can stay calm

**I feel safe - I feel safe**  
**You make me feel safe**  
**I release my fear and overcome**  
**You stand up for me and make me feel safe**

I feel safe - I feel safe  
I feel safe

I feel safe - I feel safe  
You make me feel safe
